---

➤ Eventuali leggere differenze sulla tonalità delle finiture, devono essere accettate, in quanto si tratta di lavorazioni artigianali realizzate a mano. Dovranno essere accettate anche differenze di colorazione e venatura delle essenze di legno in quanto prodotto naturale.

Possible differences in color shades of finishings have to be accepted, as it comes to handmade, handicraft works.  
Also differences in colours and veinings of the wood have to be accepted, since it comes to a natural product.

Возможные незначительные различия в тональности отделки должны быть приняты, так как речь идет о ремесленных работах, выполненных вручную. Должны быть приняты также различия в цвете и расположении прожилок дерева, так как это натуральный продукт.

---

➤ Piccole cicatrici, graffi o imperfezioni (sempre presenti nella pelle animale) non possono e non devono essere considerati difetti, ma caratteristica e pregio della vera pelle naturale di qualità. Queste imperfezioni sono molto più visibili nelle pelli di maggior pregio, quali nabuk e pelli all'anilina (toledo), in quanto generalmente trattate con rifinizioni poco o nulla coprenti.

Minor scars, imperfections and flaws (always present on animal hides) are not to be considered defects but distinctive characteristics that add uniqueness and value to real, natural and quality hides. These imperfections are always evident on hides of the best quality, like nabuk and anilin leather (toledo), because they are less treated than the other.

Небольшие шрамы, царапины и несовершенства на коже (всегда присутствующие на коже животных) не могут и не должны рассматриваться как дефекты, это характеристика и ценность натуральной кожи высокого качества. Эти несовершенства гораздо более заметны на ценных кожах, таких как набук и анилин-коже (Toledo), выделанных и обработанных практически без покрытия или малом его количестве.
