

# DESIRE Pool Table

DE.POO

---

## Description

Desire Pool Table is made following the Italian manufacturing tradition and using the highest quality materials. The main feature of Desire Pool Table is the decoration on the edges. These are precious inserts that embellish the product. Playing with marbles, briars, inlays and metallic fibers, the table can be customized according to one's tastes and the style of the home.

The framework is crafted from solid wood, the playing surface is made of slate sheets and coated with a professional soft cloth, produced by the leading company Simonis. The attention to details is also reflected in the coverage of pockets, rigorously in leather or eco leather.

All Vismara Pool Tables can be accompanied by professional pool lamps which provide a diffused lighting perfect for playing, and all accessories for playing pool.
