

VERTIGO Arcade Table

MC.GT.ARC

Description

Vertigo, is the new table for Arcade videogames. Vismara revisited, in a modern way, a game with a vintage flavor dear to the 70-80s. Its main feature is the unusual arrangement of the screens, placed horizontally on the table top, differing from the typical Arcade Cabinet. The design is modern, with soft and essential lines, perfect to furnish contemporary interiors.

The 42-inch LCD screen is recessed under a lacquered tempered glass, and is divided into two parts, one per player. Both game stations are provided by 24kt gold plated buttons and joysticks. Hidden inside the table, are cooling fans to ensure proper ventilation to the screen.
