

MODI' Bar Cabinet

LE.BR.MO

Description

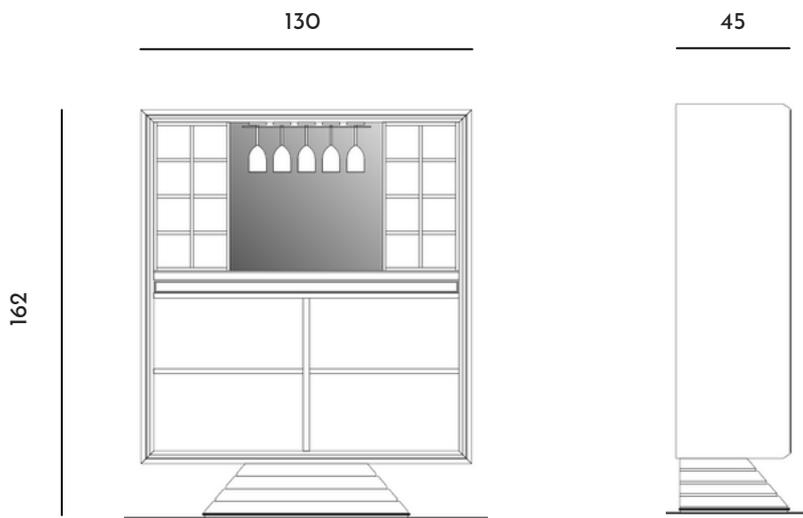

Modi is a refined and essential bar cabinet. The minimalist design is enriched with precious details, such as the doors covering in embossed leather and the golden steel profiles. The interior is divided in two parts: the lower one used for storage and the upper one for the display of all bar accessories.

Storage compartments for bottles, golden steel cup holders and pull-out working top, complete this sophisticated bar cabinet. Modi is equipped with automatic LED lighting and mirror back, which illuminates and expands the space.
